NMI Prayer Requests & Praises

Sunday, November 8

Praises

Give thanks that pastors continue to do excellent work in the midst of the COVID-19 pandemic, providing pastoral care for their congregations, and reports are that the church is growing stronger. Churches have reported growth in associate membership during the lockdowns. Praise God that He has taken care of the health of our people during the pandemic, and for supplying needs. There have been no losses of pastors, members of various boards, or of the superintendents.

The Costa District is a pioneer district, but has been moving forward, even in the pandemic, reaching new people for Christ.

Give praise to God that the churches in Colombia have been blessed to carry out compassionate projects in their communities.

Through the ministry of evangelism, 15 new church-type missions were launched in the country.

Prayer Requests

Pray for the protection of pastors and their congregations as they begin to meet and hold services in public again. There has been a second surge in COVID-19 cases in the country just as the churches have begun to meet. Pray that pastors will not be discouraged by this.

Pray that God would give abundant wisdom to pastors and members as they continue to minister in their communities, and reach out to new areas, planting new churches.

Pray for those who are struggling with COVID-19, and for those who have lost loved ones due to the pandemic.

Pray that the Lord will bless Colombia with a spiritual awakening, and that rather than focusing on the pandemic and economic recession, the churches will see opportunities to preach the gospel.
